Conservation Plan and include your new tillable acres in your Nutrient Management Plan as soon as
possible to maintain program eligibility.**

Do you have livestock on your farm? YES____ NO____

Please list the type and number (example: 10 steers, 40 chickens)

OVER

Conservation Compliance Status

For each Conservation Standard, please check the box that best characterizes the farm(s) on which you are claiming the tax credit.

Conservation Compliance Standard Status

Cropland	Compliance
----------	------------

You have and are following a soil and water conservation plan. (Cropped fields meet tolerable soil loss.) And a Nutrient Management Plan has been developed and implemented according to NRCS 590 Standard.

☐

Please enclose your signed 590 Checklist for the 2014 Crop Year with this form or check with your renter to ensure it has been submitted. Certification will not be processed without a Current 590 Checklist on file.

Conservation Compliance Standard	Compliance	Will Achieve	Doesn't Apply
----------------------------------	------------	--------------	---------------

Livestock: Manure Storage Facilities	(Latest Compliance date: Dec. 31, 2014)		
---	---	--	--

All facilities constructed or substantially altered after 2002 meet the NRCS 313 Standard.

☐
☐
☐

All facilities have no visible signs of leakage or failure.

☐
☐
☐

All facilities are maintained to prevent overflow.

☐
☐
☐

For storage facility that has not had manure added or removed within 24 months, it has been closed according to standards or its continued use had been approved.

☐
☐
☐

Livestock: Clean Water Diversion	(Latest Compliance date: Dec. 31, 2014)		
---	---	--	--

Runoff is diverted away from all feedlots, manure storage areas and barnyards within **Water Quality Management Areas**. **WQMA**= areas within 300' of streams, rivers or wetlands and within 1000' of lakes and in areas susceptible to groundwater contamination such as wells and sinkholes.

☐
☐
☐

Livestock: Manure Management Prohibitions	(Latest Compliance date: Dec. 31, 2014)		
--	---	--	--

There are no unconfined manure piles in a WQMA.

☐
☐
☐

There are no channels or other indicators of significant discharge from a feedlot or stored manure into waters of the State.

☐
☐
☐

There is self-sustaining sod or vegetative cover adequate to preserve streambank or lakeshore integrity in areas where livestock have access.

☐
☐
☐

I certify that the qualifying acres are part of a farm that is in compliance with the applicable conservation standards or that compliance will be achieved as indicated above.
